

Nature Scavenger Hunt

Ways to use this Scavenger Hunt:

- Go on a hike and have the kids point out the things on the list they see as they walk. (This makes hiking not so "boring")
- Have them collect as many items from the list that they can. Points for creativity. (Obviously some of those you can't pick up.)
- Turn it into a competition and split up into teams to find the items. Cross them off as you go and see who can do it the fastest.
- Take pictures of all the items you can find. Be creative, and make sure you are in the picture somehow. You can also turn this into a competition.
