

Instructions

- Cut out the head band. You may not need all four. You might only need 2 or 3 depending on how big your child's head is.
- Cut out the turkey and feathers. You can print the feathers on colored paper, or have the kids color them.
- Color the turkey and feathers.
- Staple or glue the turkey and feathers onto the front of the head band in any fashion you'd like. (Probably with the turkey in front and the feathers stacked behind.)
- Staple the band together, making it as big as you need to fit around your child's head.
- Place on child's head and act like a turkey. Happy Thanksgiving.
