

Sample:

my summer bucket list craft

Materials:

- Template
- Pen/Marker
- Scissors
- Glue and/or Stapler

Instructions:

First, you want to print out the template.

Next, fill out each circle. Write down all the things you want to do, places you want to go, and people you want to see. When writing on the circles, you want to leave a little room at the top for gluing or stapling. There is a light-colored line on each circle. Don't write above that line.

Then, Cut out all the circles.

Glue the biggest circle (things I want to do) onto the big beach ball. Center the circle as best you can onto the beach ball.

Glue (or if you are stapling, staple at the end) just the top of the second biggest circle (places I want to see) onto the top of "things I want to do" circle. You only want to glue the top section, preferably on the light-colored line.

TIP: You want the words "things I want to do" to still be visible with the circle on top of it. It should automatically be visible if you are aligning the tops together.

Next, glue (if you're gluing) the top of the small circle (people I want to see) on the top of the "places I want to go"

Lastly, you want to glue the top of the small beachball (My Summer Bucket List) onto the top part of the "people I want to see" circle. If you are stapling, you can staple them all together at the top.

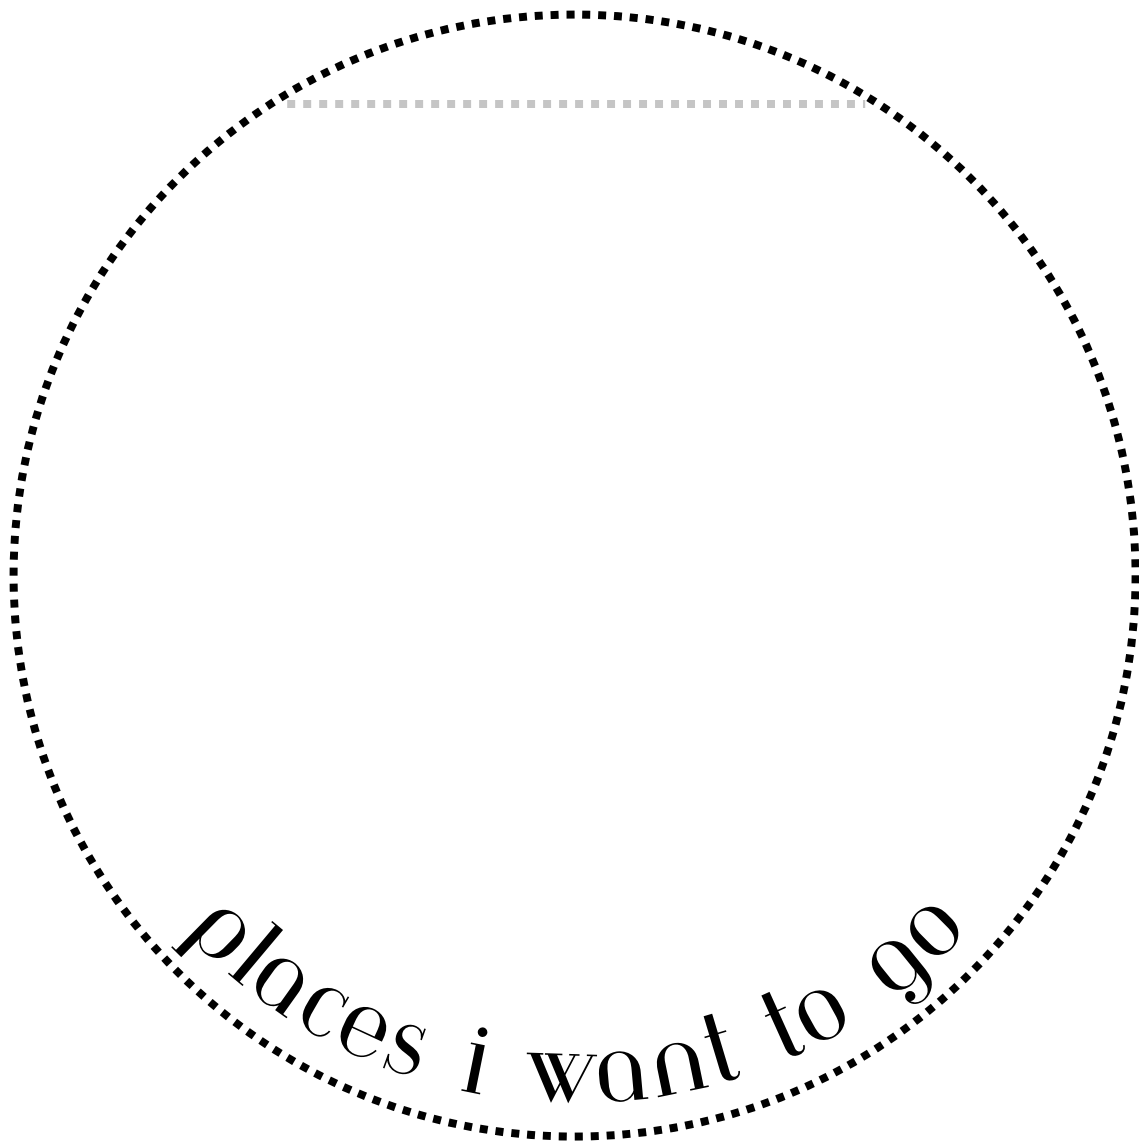

Now, you can flip through your bucket list and see all the things you want to do.

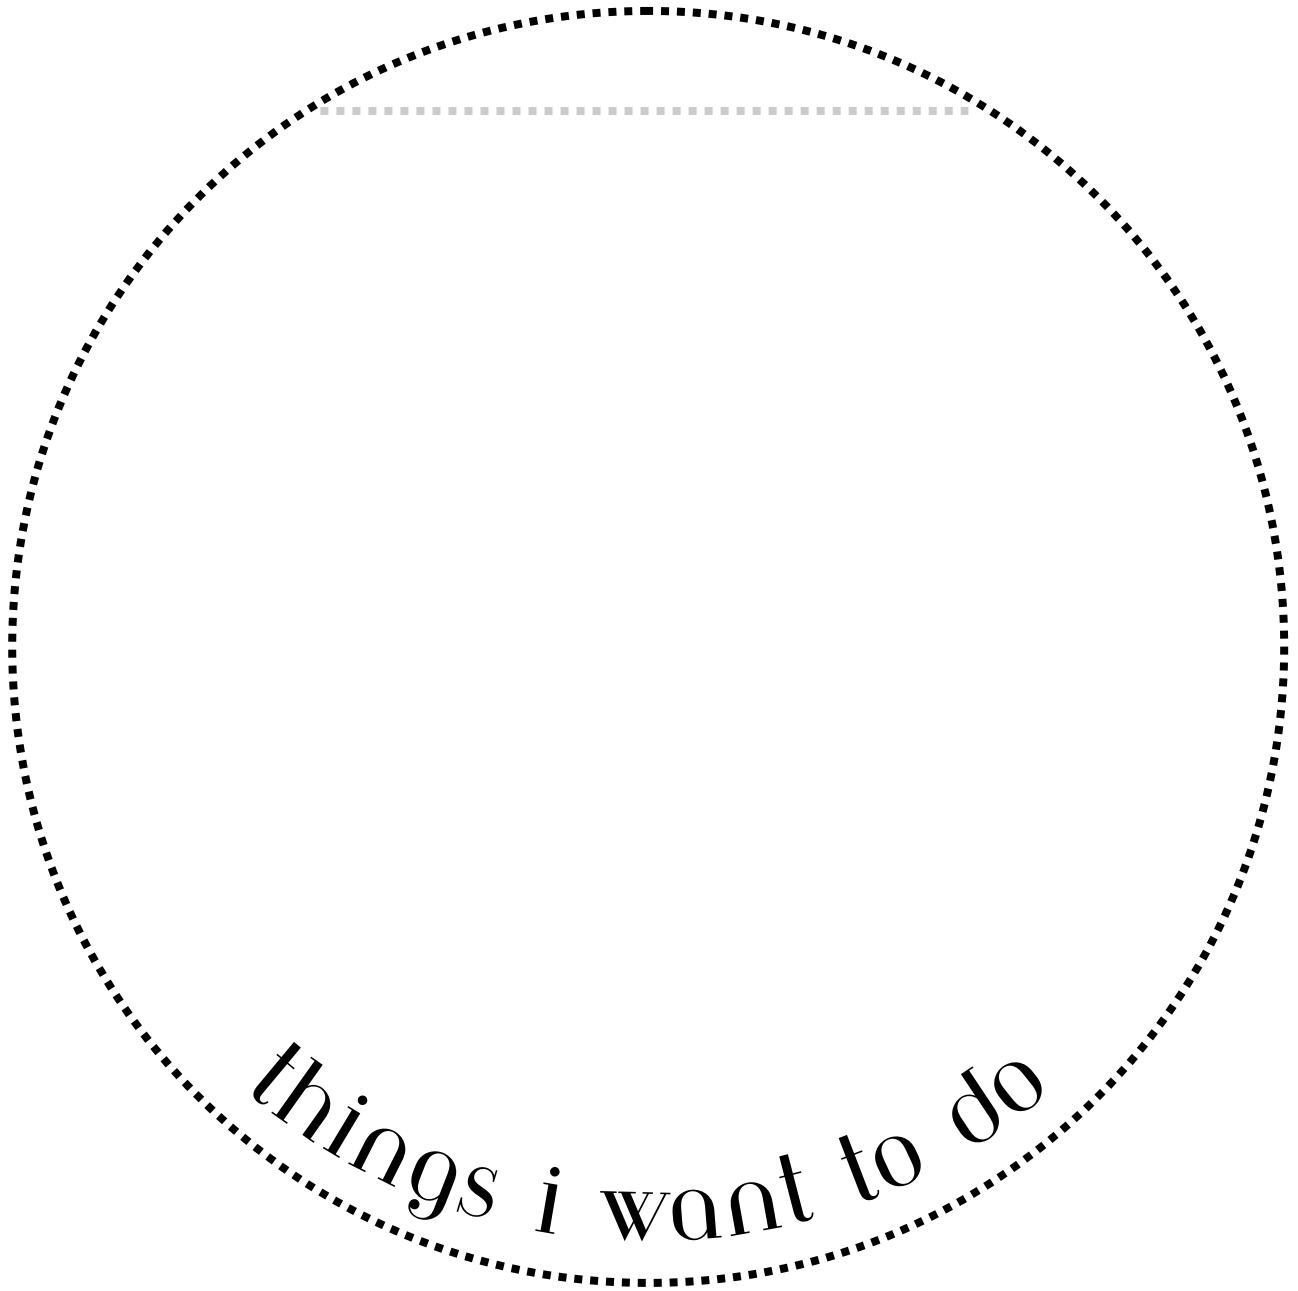

TIP: You can fold along the light-colored lines for the two smallest circles to make it easier for flipping.

things i want to do
